But when he got there the outboard was bare— No! I mush't say that it doesn't belong here. I mean when Uncle Wiggily reached the drug store it was closed, and there was a sign in the door which said the monkey-doodle who kept the drug store is done that gene to a baseball-moving-picture—show, and wouldn't be back for a long while.

"Then I wonder where I am going to get Nurse Jame's pepermint." asked incle Wiggily of himself, "I detter go see if hr. Possum has any."

But while Uncle Wiggily was going on through the woods once more, he gave a suiff and a whiff, and, all of a sudden, he smelled a pelpermint smell.

The rabbit syntheman stood still, looking around and making his pink none twinkle like a pair of roller skates. While he was doing this along came a cow lady chewing some grans for her complexion.

"What are you doing hers, Uncle Wiggily told her how be insigned to the drug store for peppermini for Nurse Jane, and how he had found the store closed, so he could not get any."

Rising Costs confront everybody! This is an era of ascending costs, a period of price advancement without parallel. No statistical chart is needed to

prove this—the effect of higher prices is felt by everyone, and is of real concern to all. It is a time for thoroughly weighing values, a time for taking advantage of every opportunity that offers a genuine saving.

Certain-teed Roofing

lowers the cost of building

CERTAIN-TEED offers a substantial saving in roof construction, at this or any other time. It costs less to buy, less to lay, less to maintain and less per year of life. Because of tremendous production (the General makes one third of all the roll roofing made in America), and because of economies effected by enormous resources, modern machinery and favorably located mills, the General is able to make the best roofing at

CERTAIN-TEED Roofing is the General's own product-from the raw materials to the finished rolls, it is made in the General's huge mills. It is made of the best quality roofing felt, thoroughly saturated with the General's own blend of soft asphalts and coated with an impervious covering of harder asphalts. This keeps the inner saturation soft, and prevents the drying out process so destructive to ordinary roofing. That's why CERTAIN-TEED outlasts other roofing. It is guaranteed for 5, 10 or 15 years, according to ply. Experience proves that it lasts longer.

CERTAIN-TEED is sold by responsible dealers everywhere at reasonable prices. Investigate it before you decide on any type of roof.
